

SUMMARY

Experienced Data Analyst with over 2 years of specialized expertise in Python, SQL, and Power BI. Proficient in designing and optimizing ETL/ELT processes for large datasets, with a proven track record in data integration, database management, and performance optimization. Skilled in developing analytics tools and visualizing KPIs to support strategic decision-making. Experienced in cloud environments, particularly Azure Databricks.

SKILLS

- SQL
- Python
- Azure Databricks
- Power BI
- ELT
- JIRA
- Git
- MS SQL Server

LANGUAGES

- Polish: Native
- English: B2

CERTIFICATIONS

- **Microsoft SQL Server Certification**
 - Advanced proficiency in relational databases
- **Databricks Lakehouse Principles**
 - Key fundamentals of the Lakehouse platform
- **Databricks Generative AI Fundamentals**
 - Introduction to AI concepts in the Databricks environment
- **Databricks Fundamentals**
 - Core analytical tools and concepts in Databricks

EDUCATION

Wroclaw University of Economics

Bachelor's in Management and Production Engineering
October 2019 – January 2023

PROFESSIONAL EXPERIENCE

Junior Data Analyst

Modivo S.A. | July 2023 – Present

- Integrated data from multiple sources using connectors and API, enabling comprehensive data insights and analysis
- Developed customer analysis tools to monitor key KPIs for the strategy department
- Created, maintained, and modified databases to support KPI monitoring and faster decision-making
- Designed and optimized ETL processes in Azure Databricks with data storage in Azure Data Lake, resulting in high scalability and performance
- Created Power BI reports that met business stakeholder requirements and visualized critical metrics
- Maintained and enhanced ETL processes through continuous implementation of modifications and optimizations

Junior Analyst

Hasco-Lek S.A. | January 2023 – June 2023

- Analyzed CRM sales data to identify key trends and delivered actionable recommendations for business decision-making
- Developed and secured Power BI reports by implementing Row-Level Security (RLS), enhancing data protection and access controls
- Optimized SQL queries, reducing data processing time by 25% and improving system performance
- Produced comprehensive reports tracking KPIs, including Year-to-Date (YTD) figures, commission amounts, and workforce efficiency metrics

Sales Intern

Angel Poland Group | December 2021 – April 2022

- Implemented data exploration techniques to understand sales patterns and customer behavior in real estate transactions
- Created interactive dashboards visualizing the apartment sales process and customer handovers
- Supported the sales department with data-driven insights for monitoring KPIs such as signed contracts, lead times, and handover rates
